Everything Holds Together By Malcolm Guite

Everything holds together, everything,
From stars that pierce the dark like living
sparks,

To secret seeds that open every spring,
From spanning galaxies to spinning quarks,
Everything holds together and coheres,
Unfolding from the center whence it came.

And now that hidden heart of things
appears,
The first-born of creation takes a name.

And shall I see the one through whom I
am?

Shall I behold the one for whom I'm made,
The light in light, the flame within the
flame,

Eikon tou theou, image of my God?
He comes, a little child, to bless my sight,
That I might come to him for life and light.

Thoughts of the day

The sun himself is weak when he first rises,
and gathers strength and courage as the day gets
on ...

If opportunity doesn't knock, build a door.

Happiness is the only thing that multiplies when your
share it.
